

Lecture Notes on Information Theory

CONTENTS

Volume 1, Number 3, September 2013

4 Bit Comparator Design Based on Reversible Logic Gates	86
<i>Soolmaz Abbasalizadeh, Behjat Forouzandeh, and Hossein Aghababa</i>	
Design Consideration for Configuration, Topology & Control Schemes of DSTATCOM Implemented on Distribution Systems	89
<i>S. P. Gawande, S. Khan, and M. R. Ramteke</i>	
A Comparative Analysis for WLMS Algorithm in System Identification	95
<i>Sidhrtha Dash and Mihir Narayan Mohanty</i>	
A Hybrid Mutation-based Artificial Bee Colony for Traveling Salesman Problem	99
<i>Shima Sabet, Fardad Farokhi, and Mohammad Shokouhifar</i>	
A Device Management and Credit Evaluation System in Home Network Domain	104
<i>Xie Lanchi, Tian Chen, and Wang Xingjun</i>	
A Proactive Complex Event Processing Method for Intelligent Transportation Systems	109
<i>Yongheng Wang</i>	
Design and Development of a Haptic Device For Academic Research	114
<i>H áctor Hugo Cort és Due ñas and Miguel ÁngelGarc ú Ruiz</i>	
Information Security Requirement: The Relationship between Information Asset Integrity and Availability for ICT Outsourcing	118
<i>Nik Zulkarnaen Khidzir, Azlinah Mohamed and Noor Habibah Arshad</i>	
Efficient Voice Integrated Browser Using Na ïve Approach	124
<i>Karunakar Batta and Vinay Krishna</i>	
A Model-checking Algorithm for Formal-verification of Peer-to-peer Fault-tolerant Networks.....	128
<i>Sungeetha Dakshinamurthy and Vasumathi K. Narayanan</i>	
Preventing Injection Attack by Whitelisting Inputs	132
<i>Gopi Krishnan S and Sandeep K</i>	
Arithmetic Coding-An Enhanced Implementation Using Locality	136
<i>Lakshmi Sasilal and V. K. Govindan</i>	
Reliability and Profit Analysis of a Soft Hot Standby PUSH VOD System based on Markov Model.....	140
<i>Tian Chen, Xie Lanchi, and Wang Xingjun</i>
